Company presentation

iGENIUS

iGenius is the scale-up on a mission to reimagine data interaction for businesses.

Our vision is to disrupt the B2B data industry by bringing a consumer approach to it.

We created crystal, the Generative AI platform for Business Intelligence.

Founded in 2016 by Uljan Sharka, iGenius was chosen by LinkedIn as one of the Top 10 Startups to work for in Italy in 2020. It was also recognized by Gartner as a 2021 Cool Vendor in AI Core Technologies, and listed as one of the top Italian startups to watch by Sifted, a Financial Times-backed publication.

Speaker:

Angela Mirra, HR Recruiter

**30 March 2023
5 p.m.**

Online event
